02.05. COLOR SCHEMES

The original WordPress theme came with 6 different colour schemes. Those can easily be achieved by changing the `theme_color` and `theme_color_alt` values in your local `style.ini` to the following:

Color Scheme	theme_color	theme_color_alt
Turquoise	#1abc9c	#16a085
Red	#e74c3c	#c0392b
Purple	#a162ba	#8e44ad
Grey	#95a5a6	#7f8c8d
Green	#2ecc71	#27ae60
Blue	#3498db	#2980b9

This should actually be done in the [styling plugin](#) over the admin interface. No need to go out of your way to edit `style.ini`.
